

## Truro Cathedral Music

### Truro Cathedral is truly a centre of musical excellence.

We have developed one of the best choirs in the country, far better than could be expected from a "small" Cathedral and the envy of some of the more famous foundations. Our reputation for excellence is further enhanced by the legendary quality of our Father Willis organ, which often attracts world-class recitalists who would not otherwise visit Cornwall. As a result, congregations and concertgoers in Truro can enjoy the very best in Cathedral music.

Such quality requires an investment in the future. The education and development of musicians is at the heart of Truro Cathedral Music's activities. Whether this is through scholarships, choristerships, or outreach to Cornish schools, the quality of work stands comparison with the very best in the country.

This investment, plus a varied concerts and events programme by carefully selected "outside" groups, means that we are one of the most interesting and rewarding music venues in Cornwall.
